

## HW16-Team: Storyboarding

### Instructions

Team number and name: Team 04 || Travel Genius

**Names of students who actively worked on this assignment:**

- Student 1: Rakshitha Appasanahalli Srinivasareddy
- Student 2: Brinda Raj L
- Student 3: Yuktha Reddy
- Student 4: Shubada Bagal
- Student 5: Vishaka Harkood

1. See slides (UX 3-Wireframing). Make sure to check the links to additional resources on the slides.

2. Get Balsamiq (web version of the 30-day trial) and play with it: <https://balsamiq.com/> .

Note, there is a way to collaborate as a team, using Balsamiq Google Drive chrome plugin:  
<https://chrome.google.com/webstore/detail/balsamiq-wireframes-free/imbfadckkgblfbkinjejdeobpfbcopgb?hl=en>

NOTE: It is ok to use other wireframing tool, if your team prefers.

3. Create a storyboard for your product:

- a. First, sketch ideas by hand for your product. Take photos (use proper lighting and image quality), insert into this doc (below), save as **pdf** and upload on Canvas. Make sure frames are large enough for us to review.
- b. Second, using Balsamiq (or other tool), create lo-fi wires and arrange them in a storyboard (first decide on activity that a target customer would perform and then describe it using the storyboard. The reader should be able to see clearly the triggers and sequence of events. Upload on Canvas as **pdf**. Make sure frames are large enough for us to review, see the PRD Report Examples.

NOTE: upload these two files separately.

Page limit for Sketches or Storyboard: ten (not including Instructions).

## 3a) Hand Sketches

- User :
- Login / Sign up. (can use Google / FB to sign up / login)
  - Enters Interests.
  - Follow profiles with similar interests.
  - Selects top 5 preferences.
  - Selects which kind of trips they like.
  - Can Discover new places.
  - Gets recommendations
  - On deciding on location, gets details.
  - Can manage the trip on personal dashboard.
  - Can create new trips, can view past trips.
